

A CORK REPLACEMENT FOR AMERICAN TASTES

Like a gorgeous silk turban on the head of a 1940's movie queen, ZORK® closures adorn some of the most exciting wines on the market today.

Upscale wine lovers never accepted screw caps. But they love the new ZORK®. Unwinding the ZORK safety strip is fun and easy, and the ZORK pulls off the bottle with a satisfying pop—like pulling a T-cork from a fine liquor or port.

ZORK offers vintners convenience, reliability and ease of application. Made from food-grade polymers, it will not taint or scalp wine flavor. It's the most cost-effective closure on the market today.

Best of all, it keeps your wine looking and tasting good.
